

Weighing Controllers

Model no.: GM8804C-8

Description:

The GM8804C-8 is a robust and adaptable indicator, designed to meet all basic weighing needs and is exceptionally versatile in building systems with PLC/PC with many options of communication ports including PROFIBUS-DP.

Key Features:

- CE compliant
- User programmable 20 I/O ports (8 inputs and 12 outputs)
- Full digital calibration without weights
- Two weighing modes: Gross mode and Net mode
- Automatic tare subtracting and tare clearing
- Patent pending two-layer advanced digital filtering algorithm
- Communication interfaces: serial interface or analog output interface or PROFIBUS-DP interface (optional)
