

Check-weigher Controller

Model no.: GM8804C-7

Description:

The GM8804C-7 is a ultra high performance check-weigher controller with many patented technology over 25 years and core competence in data processing and filtering. This controller offers the state-of-art ability to balance between data stability and response speed, making it the highest performing check weigher controller on the market.

Key Features:

- CE compliant
- 20 I/O control ports (8 inputs / 12 outputs)
- Patent pending two-layer advanced digital filtering algorithm
- RS232 / RS485 serial communication ports
